About Me

I'm a Front End Web developer passionate about making error-free websites with 100% client satisfaction. I love to solve real-world problems. I am strategic and goal-oriented, and I always work with an end goal in mind. I pride myself on doing quality work and maintaining excellent communication. Most of the time I some technologies I enjoy working with include ReactJS, Next.js JavaScript as well!

WORK EXPERIENCE

Self-Initiated Projects | 2025 – Present

Front-End Developer

- Developed multiple responsive web pages using React and Tailwind CSS
- Practiced API integration and data fetching with React Query
- Built reusable UI components and ensured clean, maintainable code
- Learned team collaboration workflow using Git & GitHub

Sparrow Forge Program | 2025 – Present

Web Design Learner (Training Projects)

- Converted Figma mockups into responsive web layouts
- Gained hands-on experience in HTML, CSS Grid, Flexbox, and JavaScript, Next.js, TypeScript, React
- Improved problem-solving and teamwork skills through group projects

Personal Projects

- Created multiple projects to practice frontend skills.
- Integrated ChatGPT API and experimented with AI-powered features
- Published projects on GitHub

ACTIVITIES

- Developing responsive web projects with HTML, CSS, JS, React & Tailwind CSS
- Practicing Redux state management for scalable applications
- Exploring AI-powered tools to enhance productivity
- Creating LaTeX templates for academic and professional use
- Building personal projects and sharing them on GitHub
